Moving Forward with Semantics for Earth Science Data

Wed. Dec. 12, 2012

12:00 Eastern Time

Tutorials and Next Steps

This last session in the Earth Science mini-series discusses building blocks for EarthCube and then presents tutorials on ontologies and GeoSPARQL.

At the end, the series is summarized with some discussion on next steps in working toward semantics for Earth Science data.

Outline

- Krishna Sinha, Building blocks for EarthCube, ~15 min.
- Nancy Wiegand, short transition talk, looking at the Architecture diagram, ~10 min.
- Leo Obrst, tutorial on ontologies, ~30 min.
- Dave Kolas, tutorial on GeoSPARQL, ~30 min.
- Krishna Sinha and Leo Obrst, wrap-up

- Moderators: Mike Dean and Nancy Wiegand
