

Thoughts on the Future of Ontolog

Michael Grüninger

June 26, 2014

Background

- Associate Professor, Department of Mechanical and Industrial Engineering, University of Toronto
- Currently President of the International Association for Ontology and its Applications (IAOA)
- Working in the area of applied ontology for over 20 years
 - ▶ Ontology development methodology
 - ★ competency questions
 - ★ ontology verification
 - ▶ Ontology Design
 - ★ Process Specification Language
 - ★ Common Logic

Current Research

- Ontology repositories
 - ▶ COLORE (Common Logic Ontology Repository)
- Ontology-based Standards
- Ontology Design

Vision for Ontolog

- Ontolog is a unique community that crosses industry, academia, and government.
- The Ontolog Forum provides a comprehensive body of knowledge for the applied ontology community. Many of the recorded sessions can be used as a valuable supplement to course lectures, capturing everything from tutorials on basic topics to in-depth coverage of cutting-edge research.
- Ensuring the long-term survivability of this Forum is a key priority.
- We are seeking community input for future sessions and mini-series.
