26 June 2014

Mike Dean

- Principal Scientist at Raytheon BBN Technologies (on medical leave)
- Involved with the Semantic Web and ontologies since the start of the DARPA Agent Markup Language program in 2000
- Recent work: data integration, rules, geospatial semantics
- Co-convener (with Peter Yim and Leo Obrst) of the Open Ontology Repository initiative
- <http://purl.org/net/mdean/>

ONTOLOG Present

- Thanks to Peter Yim, Leo Obrst, and the whole community for getting us where we are today
 - Thriving Community of Practice
- Activities
 - Regular seminar series
 - Support for Ontology Summit and other community activities
- Infrastructure
 - Active email lists
 - Wiki
 - Teleconference services

ONTOLOG Future

- Activities
 - Hopefully more of the same
 - Need to start lining up speakers and series
- Infrastructure
 - Need to migrate active services
 - Potential to modernize (e.g. PSMW)
 - Subject to cost and other realities
 - Continue to focus on open, non-proprietary solutions
