Ontology Summit 2009
Toward Ontology-based standards

Project Update

October 8, 2009

Steve Ray

steve@steveray.com

Summit Goal

To articulate the power of synergizing these two communities (ontology and standards) in the form of a communiqué in which a number of concrete challenges can be laid out. These challenges could serve as a roadmap that will galvanize both communities and bring this promising technical area to the attention of others.

Agenda

- Checking in with the example projects on ontologies for
    - Process industry – Matthew West
    - E-Business – David Connelly
    - Financial industry – Mike Bennett
    - E-Gov – Brand Niemann & Kevin Keck
    - Floor plans – David Coggeshall & Michelle Raymond
    - Geospatial – Josh Lieberman
    - Units of Measure – Ed Barkmeyer

- Identifying and tracking other good examples

Future Ontology Summits
