Ontology Summit 2013:
Ontology Evaluation Across the Ontology Lifecycle
Virtual Panel Session 08 – March 7, 2013

Track A: Intrinsic Aspects of Ontology Evaluation II

Co-Champions:

Steve Ray (Carnegie Mellon University Silicon Valley)
Leo Obrst (MITRE)

Panelists Today

- Professor PatrickLambrix (Linköping University, Sweden) **"Debugging is-a structure in ontologies"**
  - Discusses basic structural evaluation through exploration of the "is-a" relation for ontologies

- Ms. MariaCopeland (University of Manchester) - **"Ontology Evolution and Regression Testing"**
  - Provides some software engineering concepts of regression testing

- Dr. MelissaHaendel (Oregon Health & Science University) **"A biologists' perspective on ontology utility"**
  - Key ontology qualities from a biologist's perspective

- Mr. EdBarkmeyer (NIST) - **"Core components for an ontology: Quantities and Codes"**
  - Finishes with some suggestions on the use of common elements within ontologies
