OntologySummit2013 session-11: "The
OntologySummit2013_Hackathon_Clinics Program
Launch"

Main Landing Page

Lists the objectives, goals and provides a short description about the Ontology Summit 2013.

Links to **Activities**, **Team**, **Resources** and **Deliverables**.

Belongs to the

- *icom_core_space*
- *Ontologysummit_website_mainMenu*

Categories.

The section and subsections have a set of semantic properties as displayed on the bottom of the page.

The **Activities** section includes seven activities:

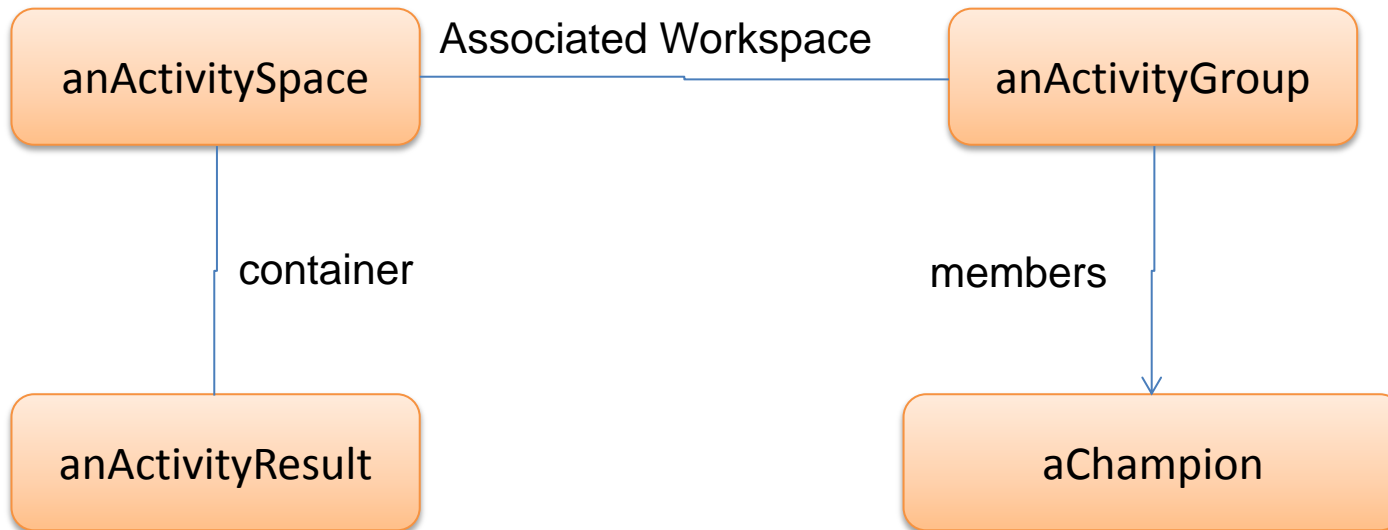

- ❖ Communique Development
- ❖ Tracks
- ❖ Symposium
- ❖ Hackathon & Clinics
- ❖ Survey
- ❖ Website Development
- ❖ Community Library

... together with a brief description for each.

Each **Activity** page presents information about:

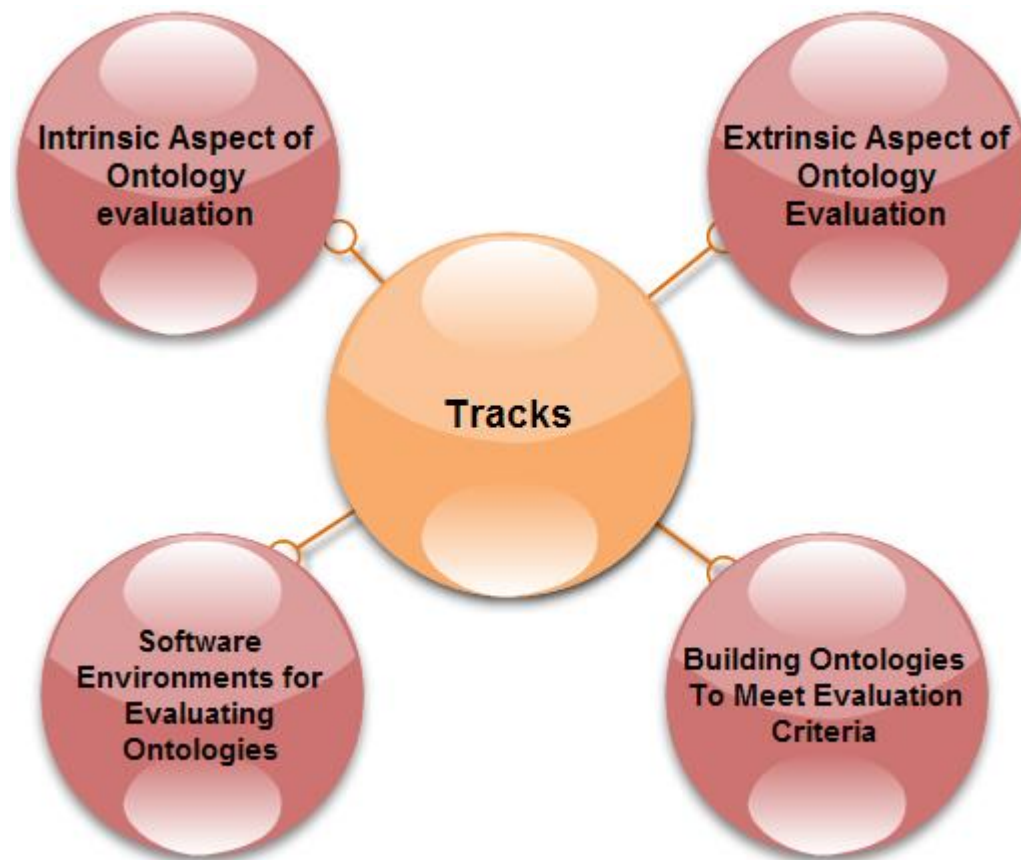

- Activity co-champions
- Scheduled sub-activities
- Links to its artifacts

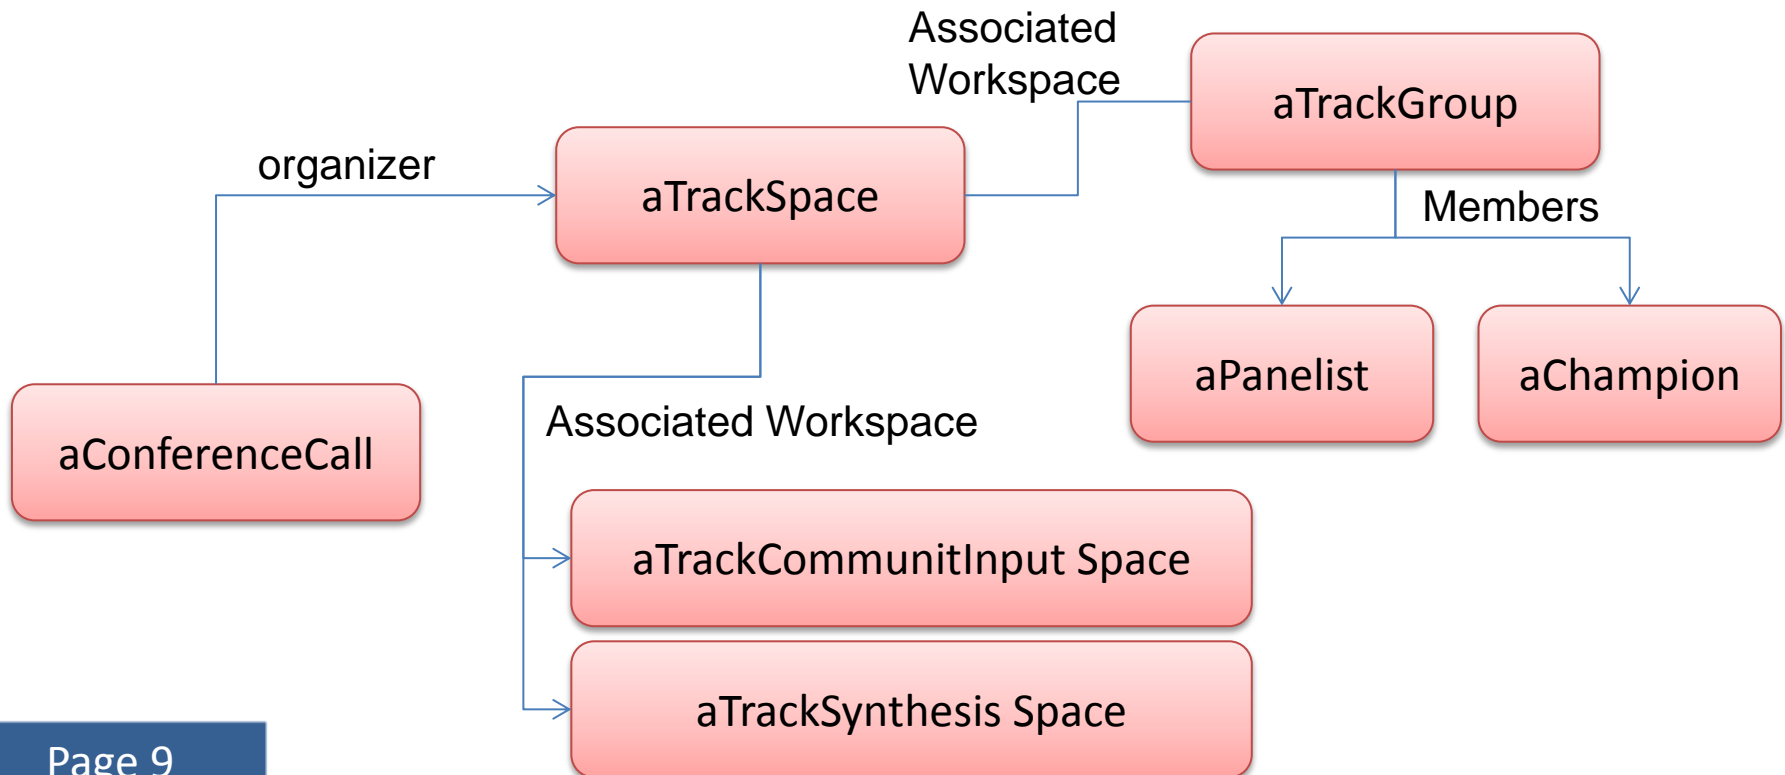

The summit has been partitioned into four tracks.

Each track solicited participation from experts in business and academia who presented relevant material in weekly on-line teleconferences.

Each **Track** page has:

- A Group composed by its Champions and Panelists
- Two Associated Workspaces
 - Community Input
 - Track Synthesis
- Virtual Meetings that are organized by the track

March 2013

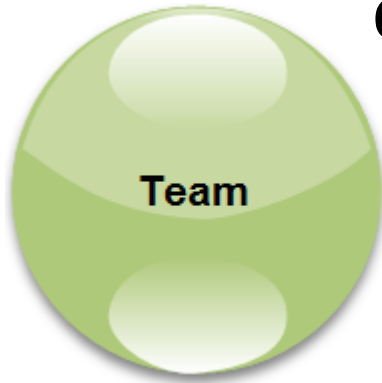

Hackathon & Clinics

This page presents information about the activity in general (co-champions, schedule, call for proposals, etc.) and links to each proposed project:

- Ontohub-OOR-OOPS!-OQuaRE project
- OSummit-content-hack project
- Ontology-of-Ontology-Evaluation project
- 15926-ref-data-validation project
- FIBO-Clinic project
- GOEF-I-Choose project
- BACnet Clinic project

Ontology Summit 2013 Team

- Members:
 - General chairs
- Subgroups:
 - Communique Development group
 - TrackA, TrackB, TrackC and TrackD groups
 - Symposium group
 - Hackathon & Clinics group
 - Ontohub-OOR-OOPS!-OQuaRE project group
 - OSummit-content-hack project group
 - Ontology-of-Ontology-Evaluation project group
 - 15926-ref-data-validation project group
 - FIBO-Clinic project group
 - GOEF-I-Choose project group
 - BACnet Clinic project group
 - Survey group
 - Website Development group
 - Community Library group

The **Resources** subsection allows access to

- ❖ List of all virtual conferences
- ❖ The [ontolog-summit] list email archive
- ❖ The Ontolog Wiki
- ❖ The Community Library space

The **Deliverables** subsection collects and facilitates access to all the artifacts that are developed for the defined spaces:

- ❖ Ontology Summit Communiqué
- ❖ Survey Results
- ❖ Track Panel Presentations
- ❖ Hackathon & Clinic Project Deliverables

March 2013

Ontology Summit 2013 website prototype

Hackathon Activities

- Improvements to the prototype:
 - More efficient management of artifacts
 - Add semantics to ontolog participant pages
 - Enable semantic queries to access information about events, presentations in conference calls
- Develop and deploy forms and templates to capture some of the material being uploaded according to said vocabulary, or to present content of the site
- Incorporate [Ontology of Ontology Evaluation](#) vocabulary
