

The Future of Semantic Wikis

- **Modeling higher-level knowledge**
more expressivity, better exploitation,
advanced services (reasoning, constraint checks),
more complex/specialized data structures
- **Exchanging information**
improved inter-wiki connectivity, interaction APIs,
use of web services, mash-up functionalities,
reuse of knowledge in external tools
- **... and, of course, (s.) wikis will vanish**
features improve and become common to all CMS
